

21st Annual Catch the Spirit Gala and After-Party

Every day Emergency Medical Services answer the call to care for our community. Ambulances dispatched from Culver EMS, Plymouth Fire Department or Walkerton-Lincoln Fire Territory are in a race to provide emergency care in homes, on highways and every other location imaginable.

SJHS and local EMS providers have joined forces to set a new standard for emergency care in the communities we serve. As a result of your generosity, eight ambulances* will each become an ER on Wheels — equipped with state-of-the-art technology including:

- An advanced communication system capable of sending patient information from the field to the Emergency Department immediately, allowing medics, nurses and doctors to create a plan of care prior to the patient arriving at the hospital.
- EKG technology that can transmit critical cardiac information from the field to the ER cardiac team waiting on stand-by for the patient to arrive.
- Auto chest compression devices that deliver precise treatment for patients in cardiac arrest, allowing faster transport and return of heart function.

SAVE THE DATE

June 1, 2018

Swan Lake Resort, Plymouth

*Proceeds will benefit emergency response vehicles in Culver (2), Plymouth (4), and Walkerton (2).
